**2022-2023**

**Name of the Department/Society: Department of Botany, MHRFDC**

**Name of the Event: Lab Safety & Good Lab Practices**

**Date of the Event: 20<sup>th</sup> June 2023**

Laboratory safety practices include appropriate facilities and equipment, adequate training, personal protective equipment, chemical management, standard operating procedures, waste handling, signage, proper laboratory practices and safe working conditions. Quality assurance is another crucial component of lab maintenance. The consistency and dependability of the data are ensured by a well-maintained lab, which benefits output production and the quality of the job performed. Further, laboratory staff should be well aware of the different techniques for the usage and maintenance of different instruments, chemicals, solution preparation, handling of apparatus. In addition, by identifying and fixing damaged equipment and equipment parts, routine maintenance also guarantees that lab equipment is safe for use.
