About The community College

Hansraj College feels privileged to be selected for contribution to community college scheme of UGC. The purpose of this NSQF is a competency-based framework that organizes qualifications according to a series of knowledge, skills and aptitude. Skills and knowledge are the driving forces of economic growth and social development for any country. Government of India, taking note of the requirement for skill development among students, has launched National Skills Qualifications Framework (NSQF).

About The Course

This course is designed to make the participants capable of solving problems using Artificial Intelligence related technologies. After completing the course, the participants will be capable of formulating AI problems that can be solved
with the raw data available in different domains. They will be able to do basic data analysis and machine learning model development with structured and unstructured data.

- DURATION: 12 months
- TIMINGS: Flexible (post lunch)
- FEES: INR 36,000
- Bright scope for placements through Industry partners

Eligibility

The minimum educational qualification for admission into Community College under this scheme will be class 12th pass or equivalent from any recognized board or university. There is no age limit to take admission in these courses.
