

Greetings from NSS Hansraj!

With the motto of “Not me, but you.”, National Service Scheme aims at instilling the virtue of social service in students and provides service to the society. NSS is a nationally recognized community service program initiated by the Government of India, which aims at public welfare, thus, the betterment of our country.

“Where there’s a will, there’s a way.” keeping this in mind, we at NSS Hansraj broadly work under five different wings, namely Health wing, Padhaku wing, Social Entrepreneurship wing, Environment and Disaster Management wing, and Rural Development wing, so that the students can indulge in the sector of public service according to their preference. We also organise various campaigns each year, such as food donation drives, plogging drives, blood donation camps, Joy of Giving week, Love week, and much more; participation in which ensures the overall personality development of an individual.

As it is a government-run program, it is also very beneficial to boost one's CV. Volunteers showing exceptional performance throughout the year also receive the letter of recommendation, which holds great value in job applications.
