The **National Education Policy (NEP) 2020** envisages the promotion of quality research within the Higher Education system. Research and innovation are important aspects to enhance quality education by the **Higher Education Institutions (HEIs)**. The establishment of **Research and Development Cell (RDC)** in HEIs will enable attainment of targets of Atma-Nirbhar Bharat and is expected to play a pivotal role in catalyzing multidisciplinary/ transdisciplinary and translational research culture mandated in NEP 2020. The purpose of establishing **RDC** is to put in place a robust mechanism for developing and strengthening the research ecosystem within HEIs, aligned with the provisions of NEP-2020. The essential elements of such an ecosystem, viz., generation of knowledge and facilitation of research, innovation and technology development for industrial & societal benefits, are addressed by human resource, intellectual capital, governance and financial resources, information management system, research promotion & guidance, Integrity and ethics, capacity building and research monitoring. The Guidelines are to create a conducive environment for enhanced research productivity; to encourage collaboration across industry, government, community-based organizations, and agencies at the local, national, and international levels and to facilitate greater access to research through mobilization of resources and funding.

For its effective implementation, **RDC, Hansraj College** seeks scientific contributions from every faculty in terms of writing research projects for funding, organizing training sessions and conferences, publishing research articles in reputed journals that are indexed in **Scopus / Web of Science** and encouraging students' innovative ideas and helping them in converting it to enterprise.

We take this opportunity to sincerely request all the faculty to get involved in quality research and publish the outcome of their research in **Scopus- / Web of Science- indexed journals** and kindly update RDC regarding the status of the manuscript (submitted / under review / accepted / published) **twice a year, in the month of December and July.**
