

2019-2020

Name of the Department/Society: BOTANIQUE

Name of the Event 4: - Workshop On Mushroom Cultivation and Bonsai Making

Date of the Event: 28/02/2020

To mark The National Science Day, a skill-based workshop was organized on Mushroom Cultivation and Bonsai Making by Dr. Deepali Bajaj and Dr. M.S. Thakur on 28 February 2020. The workshop emphasized on the nutritional and curative properties of different types of Mushrooms and the method to cultivate them. Bonsai is a dexterous technique of growing plants in a miniature form while having its original age. Bonsai making workshop highlighted importance of bonsai, their therapeutic properties and the methods in Bonsai making like pruning, cutting, fertilizing, etc. It is an attempt to break through the dormancy of normal classroom teaching and make students self-reliant, motivating them into the budding era of entrepreneurship.
