

NAAC ACCREDITED 'A++' GRADE COLLEGE

2022-2023

Name of the Department: Pi, Department of Mathematics

Name of the Event: Relevance of Vedic mathematics in higher education

Date of the Event: 8th September, 2022

Description of Event:

Department of Mathematics, Hansraj College, have successfully conducted our session on Vedic Maths. As declared earlier, the session was the first segment from our very own Mahatma Hansraj Memorial Lecture Series and it was a sell-out. The room was filled with dignitaries and students from and around the University Circuit and the college Principal, Prof. (Dr.) Rama herself joined us for the session.

The day began with the inaugural ceremony of lighting the 'diya', followed by the welcoming of our guest speaker - Mr. Anil Kumar, Regional Coordinator at Shiksha Sanskriti Utthan Nyas and a prodigy in Vedic Mathematics. Then, before the main event, the very students of our own Department were startled by the news of Council announcement that was kept hidden from everyone until that moment! What followed next were 10 radiant minutes of guessing, hooting, cheering and clapping for the newly formed Council! (HOORAY!)

After this little off the track but really important and none the less amazing announcement, we dived in right into the world of Mathematics and mental calculations. Beginning right from the history of mathematical developments during the Vedic times to the prevalence of the methods and formula devised back then in today's world, Anil Sir's words and way of teaching hypnotized almost everyone in that room for 2 hours straight. By the end of it, the attendees were intrigued and enlightened and some were even confused! How could a concept that is this vast and salient stay so silent and unheard of for ages now! The audience had a lot of questions, all of which were very enthusiastically answered by the speaker. The day was finally wrapped up with a Thank You speech by Sir Rakesh Batra and we called it a day.
