The session was led by Fatima, Aarti, and Yasin Patil, who brought diverse perspectives and practical insights into the discussion. The speakers highlighted how AI-driven tools are increasingly being integrated into areas such as data analysis, strategic planning, operations, and performance management. ### NAAC ACCREDITED 'A++ GRADE COLLEGE

The discussion encouraged students to move beyond the “Man vs Machine” narrative and adopt a “Man with Machine” approach, where human creativity, ethical judgment, emotional intelligence, and critical thinking remain indispensable. Real-world examples and industry trends were shared to illustrate how future managers must learn to work alongside technology rather than resist it.

The session concluded with an interactive segment where students actively engaged with the speakers, gaining clarity on future career expectations and skill requirements. Overall, the event successfully prepared students to navigate the management landscape in an AI-driven era.
