

**2020-2021**

**Name of the Department/Society: Ordinateur**

**Name of the Event 5: Alumni Talk 2**

**Date of the Event: 18/08/2021**

Ordinateur organized its second Alumni Meet of the session 2020-21, on 18th August 2021. The session was primarily aimed to help the students to achieve guidance regarding their future career paths and the possible opportunities that await them after college. Four alumni of the Computer Science Department of Hansraj College, Meghna Agarwal, Bushra Aleem, Mridula Garg, and Ajay currently working in big companies were invited to guide the students. The alumni graced their juniors with their presence and shared their wisdom and experiences with college and career choices, interspersed with patiently satisfying the curious wonderings of their juniors. The department faculty was also present and expressed their pride at seeing their ex-students successfully helping their juniors in choosing the best path for their career. The session concluded with a vote of thanks by event coordinator Ms. Aarti Goel.
