

NAAC ACCREDITED 'A++' GRADE COLLEGE

2022-23

Name of the Department/Society: Lumen Society

Name of the Event: Alumni Connect Seminar

Date of the Event: 5th January 2023

Convenor of the Department/Society: Dr. Amit Sehgal and Dr. Pradeep Kumar

Event Co-ordinators: Dr. Maya Verma and Prof. Chetana Jain

Description of the event

The Department of Physics and Electronics, Hansraj College organized its Alumni Connect Seminar on 5th January 2023 under the guidance of coordinators Dr. Maya Verma and Prof. Chetana Jain. This event was organized in association with the Department Society – Lumen, IQAC, RDC and Program Council of Hansraj College.

The speaker was Ms. Garima Malik, an alumna of the department from 2012 batch. She is the founder and chief of operations Labrynthe Private Limited. The title of the talk was, Spherical Chicken in Vacuum: An Unconventional Path to a Scientific Career. The curious and enthusiastic students of physics and electronics from all the three years participated in the seminar. There were about 90 students who participated in the seminar.

It is well said that best understanding of physics comes with imagination and practical knowledge and application of concepts and topics, keeping this in mind the program started with a story of spherical chicken in a vacuum. **After the introduction and a short discussion on the story of the chicken, the discussion shifted to introducing opportunities in physics for start-ups. This was followed by a short introduction of Labrynthe Private Limited. It is a start-up whose main focus is on creating practical knowledge of conceptual things related majorly to physics and topics like exploring basic concepts in physics** for school-going kids, they work on creating tools that can help us understand concepts better like a simple glass through which the sun can be observed and we can look at the sun without some very heavy. The talk was followed by sun-gazing activity in the college ground.
