

2021-2022

Name of the Department/Society: **ENACTUS**

Name of the Event (Cultural) 2: Plantation Drive II

Date of the Event: 10th April 2022

To overcome the problem of pollution, Hansraj through its plantation drive was able to plant 10+ varieties of plants throughout the campus including some public parks. This plantation drive has a lot of importance and is very crucial for the environment. These days we only see people cutting trees for their greed, but what makes a person stand out from the crowd is when one plants a tree. This drive not only aids the environment but is good for living beings as well-they will get good air to breathe and will also foster the standard of living.
