NAAC ACCREDITED 'A++' GRADE COLLEGE

2024-25

SciQuest: Where Ideas Ignite

Rasayanatva, the Chemical Society of Hansraj College, hosted SciQuest: Where Ideas Ignite, a Presentation Showdown on 8 th October 2024 at 1 p.m., as a celebration of intellectual inquiry and critical thinking. It served as a tribute to the pioneers of tomorrow and the bold thinkers who dare to question and push the boundaries of possibility. The Chief Guest for the event was Dr. Arun Bhardwaj, alumnus of Hansraj College and esteemed scientist and engineer at ISRO with more than 27 years of extensive experience working on high-tech space imaging systems.

The event was inaugurated with a round of felicitations of Dr. Bhardwaj and Prof. Manoj Kumar, respected Convenor of the society. Following this, Dr. Bhardwaj spoke about the contributions that scientists make to society. In particular, he spoke about the various advancements in agriculture, medicine and technology made by Indian scientists and how they helped India carry forward the non-Alignment movement through self-reliance. Dr. Bhardwaj also touched on topics such as India's space program and her Antarctic program. This was followed by an interactive session where members from the audience asked Dr. Bhardwaj questions on various issues like the ethics of agricultural innovation and climate change prevention strategies.

This was then followed by the presentation competition, with participants discussing and being asked questions on pressing issues that affect the world like globalisation vs. localisation, climate change and industrialisation.

The event concluded with an eloquent vote of thanks from Rahul, Senior Secretary of Rasayanatva, bringing an end to the resounding success that was SciQuest: Where Ideas Ignite.

Dr. Verghese Kurien

At the time of independence, India was importing milk products like baby food, butter and cheese. In 1955, India was importing 500 tonnes of butter and 3000 tonnes of baby food from dairy companies in Europe.

Dr. Verghese Kurien created the Dairy Cooperative movement. AMUL is a National brand and India is self-sufficient in Dairy products.

He created White Revolution
