

2021-22

Name of the Department/Society: **Department of Physics & Electronics/LUMEN**

Name of the Event 2: Career Counselling Session - 'A Guide to a Promising Career':
Career counselling and guidance for Physics and Electronics undergraduates

Date of the Event: 18th September 2021

The session was taken by our esteemed guest speaker: Mr Alok Bansal, an expert career counsellor and mentor, who has mentored over 20,000 students. Primarily, the speaker centered on the need of exploring one's abilities and interests to choose the right career path. He further explained the industry's demand and enrollment process in globally available courses and internships which can add great value to one's profile. He busted many myths about studying abroad by illustrating the success stories of his mentees, which kept the participants engaged.
