NAAC ACCREDITED 'A++ GRADE COLLEGE

2024-2025

Name of the Event: National Ecolympiad

Organised by: Economics Society, Hansraj College

Date of the Event: 27th & 29th December 2024

Venue of the Event: Online

Name of Coordinator: Muskan

Name of Convener: Vinod Kumar Mayala

Event Description:

The national-level competition organized by Ecosoc created a rigorous platform for students to test their economic knowledge and analytical abilities against peers from across India. This wasn't just a simple quiz but a comprehensive challenge designed to push participants beyond memorization into genuine economic thinking.

The competition featured multiple rounds, each testing different aspects of economic understanding. Students applied theoretical frameworks to real-world scenarios, worked through complex problem-solving exercises, and engaged in substantive discussions about current economic issues affecting India and the global economy. This multi-layered format ensured that success required both breadth and depth of knowledge.

Competing at a national level brought an important dimension to the experience. Students found themselves matched against some of the brightest economics enthusiasts from colleges nationwide, raising the stakes and the quality of competition. This exposure helped participants benchmark their abilities realistically and understand where they stand among their peers across the country.

NAAC ACCREDITED 'A++ GRADE COLLEGE

Beyond individual achievement, the competition emphasized collaboration and teamwork in certain rounds. Students learned to communicate economic ideas clearly, defend their positions with evidence, and work collectively to solve problems. These soft skills prove just as valuable as technical knowledge in professional settings.

The competitive environment also sparked deeper engagement with economics. When students invest effort in preparing for and participating in such events, the subject transforms from classroom material into something genuinely interesting and relevant. Many participants discovered new areas of economics they want to explore further.

Overall, the competition succeeded in its broader mission of nurturing the next generation of economic thinkers and leaders. It provided not just a test of knowledge but a growth experience that combined learning, networking, and personal development in ways that traditional classroom settings rarely achieve.
