

2020-2021

Name of the Department/Society: Rotaract Club

Name of the Event 6: Food Donation

Date of the Event – July 2020

This project aimed to feed the needy ones around us. We can't help everyone but if one person help the people or animal around, it can bring a huge change because contribution of just one person also matters. Under this project, we fed the poor section of the society who suffers to get one meal a day. Along with it, we also fed the stray animals including dogs, cows etc. Giving one meal to someone isn't a big thing but still it matters much to the person who suffers to get it and their happiness is something which can't be measured.
