

**2021-2022**

**Name of the Department/Society: Srishti Chetna - The Zoological Society**

**Name of the Event 1: Webinar cum Virtual Visit to IVF Center**

**Date of the Event: 2<sup>nd</sup> July 2021**

**Zoological Society “Srishti Chetna”.** The society has organized A **Webinar cum Virtual Visit to IVF Center** on IVF Technology on 2<sup>nd</sup> July 2021.

This included a lecture focused on IVF technology and followed by a real Lab visit to understand the complete procedure of IVF in human being (how to maintain zygote culture and time period to transfer it in woman) by different doctors from preparation of zygote and transfer it to human, virtually.

The session was headed by the esteemed speaker Dr. Nupur Garg MS (OBS. & Gyn., IVF Center, Noida). This Lecture was centralized on learning and understanding of IVF technology and its application in real world. The Lecture was followed by the question and answer round where the students discussed all their queries with the speaker.
