## 2024-2025

**Name of The Event:** National Space Day

**Organised By:** Lumen: The Physics and Electronics Society

**Venue Of The Event:** Hansraj College

**Date Of The Event:** 23rd August, 2024

**Name Of The Convenor:** Dr. Davuluri Srikala

**Theme: Touching Lives while touching the moon: India's Space Saga**

*Touching Lives while Touching the Moon: India's Space Saga*

**INAUGURATION**  
Time : 11:00 AM  
Invited talk:  
Dr. Sanjeev Kumar Verma  
Department of Physics and  
Astrophysics, University of Delhi  
Time : 11:15 AM  
Venue: Multipurpose Hall, C  
Block, 2<sup>nd</sup> floor

**Movie Screening**  
A short documentary on "75  
years journey of ISRO"  
Time: 12:15 PM  
Venue: Multipurpose Hall, C Block, 2<sup>nd</sup>  
Floor

**Quiz competition**  
On Indian Space Research  
Time : 01:15 PM, Venue: PEL 5 (B-block, 1st floor)  
Registration Link:  
<https://forms.gle/138TczFXuDeaSNlu9>

**PPT competition**  
on  
"Space Exploration,  
Survival, and Colonization  
Techniques"  
Time: 01:45 PM  
Venue: PEL 5 (B-block, 1<sup>st</sup> Floor)

Registration Link:  
[https://forms.gle/3JCQDazUM9  
peiuJ5A](https://forms.gle/3JCQDazUM9peiuJ5A)  
Deadline: 23.08.24, 23:00 hrs  
Contact for queries:  
nishantshankhwar@hrc.du.ac.i  
n

**Exciting Prizes**

- ❖ Open to all the Departments
- ❖ Limited Entry: up to first 15 teams

**LUMEN HANSRAJ**  
Department of Physics and Electronics,  
Hansraj College, University of Delhi

**Patron**  
Prof. (Dr.) Rama  
Principal, HRC

**Convenors**  
Dr. D. Srikala  
Dr. Nishant Shankhwar

**Coordinators**  
Dr. Neelakshi N. K. Bohra  
Dr. Aman Phogat

**Teacher In-Charge**  
Dr. Ravi Kumar

**Student Coordinators**  
Shrishi Malik  
Ajwa

## *Inaugural Session*

*Time: 11 am*

Chief guest Dr. Sanjeev Kumar Verma, Associate Professor, Department of Physics and Astrophysics, University of Delhi, was welcomed by the College Vice-Principal Prof. Vijay Rani Rajpal with a memento (a collage that is thoughtfully crafted by our student which beautifully depicts the remarkable 75-year journey of ISRO—a journey that has inspired generations and fueled our passion for science and discovery) and a sapling. The program began with a light lamping ceremony by the guests, faculty members and students.

## *Event 1: Invited Talk*

*Speaker: Dr. Sanjeev Kumar Verma, Associate Professor, Department of Physics and Astrophysics, University of Delhi*

*Topic: Foundations that led to the current advancements of humanity into space.*

*Time: 11.15 am*

A very interactive session with active participation of students and faculty took place during the session. The talk started with a question on “How did humanity reach this stage, this development, which was unimaginable 500 years ago?” The focus was on vast symmetry of the universe, the unknowing composition of stars and celestial bodies. Our ancestors taught and understood Science without advanced animations and diagrams.

The first foundation about world's view was "earth was the physical and psychological center of the universe". The second, throwing something towards up makes it to fall down towards the center of earth: earth is spherical. But gases, smoke rises up away from the center of earth. Third, earth revolves in orbit, why?. All the above were understood as because hot terrestrial objects-celestial objects don't follow rules of earth. This world view was so popular it took thousands of years to break it. By the time of Newton, this world view was not believed in anymore. Galileo experiments with increased telescope power proved that earth was not the center and homogeneity of space and laws of Physics applies everywhere.

He observed that Earth is also in spherical shape. Space is homogeneous and isotropic. Nature's laws and its basic theoretical understanding are the foundations in which the current technologies are based.

The talk was concluded with an open discussion on time invariance, classical mechanics perspective, Einstein's world view in understanding the beginning of universe.

## Event 2: Movie Screening - A short documentary on “75 years journey of ISRO” Time: 12.15 PM

Indian Space Research Organization (ISRO) was established in 1969, and it has been at the forefront of advancing space technology and exploration. From deploying satellites that enhance our daily lives to pioneering ambitious missions like Chandrayaan-1, 2, 3, Mangalyaan (Mars Orbiter Mission),

Aditya L1, and many more, ISRO exemplifies the relentless pursuit of progress and the eternal quest for knowledge. From launching its first satellite, Aryabhata, in 1975, to the groundbreaking success of the Chandrayan and Mangalyaan missions, ISRO has continuously pushed the boundaries of science and technology, all while working with limited resources but unlimited ambition. An exclusive documentary on the incredible journey of ISRO was showed to the participants.

### Event 3: *QUIZ Competition* *Topic: Indian Space Research* *Time: 1.15 pm*

A quiz competition with a series of exciting and thought-provoking questions related to the mysteries of our solar system, the marvels of distant galaxies, the history of space exploration, the future of human space travel, and Indian's contribution in all these aspects were asked during this session. The participant teams showed lot of enthusiasm and the winner team was awarded with a book on "Surely you're Joking Mr. Feynman: Adventures of a Curious Character" by Richard P. Feynman.

## Event 4: Power Point Competition

**Topic: Space Exploration, Survival and Colonization Techniques**

**Time: 1.45 pm**

A power point competition on “Space Exploration, Survival and Colonization Techniques”, was held to explore creative thinking of our young brains. All the teams shared unique aspects of space science which were inspiring and challenging to the audience. Each team was excited to share their insights and the topics presented were as on various topics. The creativity and ingenuity of participants was very well applauded.

- First Price was given to the presentation on “*Development of artificial magnetic field*”. A book on “*The Universe in a Nutshell*” by Stephen Hawking was presented.
- Second Price was given to the presentation on “*Enduring beyond imaginations*”. A book on “*Einstein: His Life and Universe*” by Brian Grazer and Ron Howard was presented.
- Third Price was given to the presentation on “*Diving into the mysteries of space*”. A book on “*Charles Darwin on the Origin of Species*” by Classics Library.
