

Hansraj English Debating Society

About the Society: The Hansraj English Debating Society is one of the most prominent debating societies of the Indian debating circuit. We have won a plethora of laurels, in both national and international debating tournaments for over a decade. The society holds a legacy of organising fourteen editions of parliamentary debate, which includes participants ranging from India and abroad. We actively train our members to sharpen their skills while simultaneously keeping up our winning streak. The activities we participate in includes both parliamentary and conventional debates.

80 Participants

Event 2:

The year 2020-21 saw the English Debating Society host a British Parliamentary debate championship in the online format, which had participants from all across the world participating to win the coveted championship. Although we transitioned to an online mode, we kept the spirit of healthy competition and fruitful debating alive.

We put in incredible effort into helping people hone their public speaking skills. In offline scenarios, we used to have live mocks to practice speaking skills, in the pandemic we shifted to an online mode of conducting trainings.

Students are also taught to logically think, generate content and understand the crux of arguments. It is also an incredible opportunity to build up self confidence.

Our trainings are conducted on various themes encompassing not only debating, but also various other matter. Our systematic training involves matter training in international relations, psychology, economics and the likes of such, to give student a holistic perspective.

Debaters across the world who have made a mark in the activity are invited to give these sessions.

Event 3: We also helped conduct a conventional debate competition which saw participation of students across the country and a beneficial exchange of ideas.

In every event we undertake, we believe in leading by example. We constantly organise sensitisation sessions to help create an inclusive atmosphere. We believe in working in a way that no one gets left behind. We also provide cash prizes and other lucrative awards to winners of our events.
