**Description of Activity Conducted:**

Report on Pad Distribution Activity

We visited a slum area to conduct a pad distribution activity. The main purpose of this visit was to help women and adolescent girls and to create awareness about menstrual hygiene. The activity was organised as a part of social service.

During the visit, we noticed that many women and girls were not using sanitary pads regularly. Some of them were also not aware of proper menstrual hygiene practices. We distributed sanitary pads free of cost to the women and girls. We explained to them why the use of sanitary pads is important for maintaining cleanliness and good health. We also told them how to use the pads correctly and how to dispose of them safely after use.

### **NAAC ACCREDITED 'A++' GRADE COLLEGE**

We shared information about Dona sanitary pads and explained their benefits. The women listened carefully to what was explained. A few of them asked questions, which we answered to the best of our knowledge. They were happy to receive the sanitary pads and thanked us for the support.

After completing the pad distribution, we spent some time with the children living in the area. We played simple games with them. The children were cheerful and actively participated in the games. Spending time with them was a pleasant experience.

Overall, the pad distribution activity was a meaningful experience for us. It helped us understand the difficulties faced by people living in slum areas and made us realise the importance of helping society.
