

## 2018 - 2019

Name of the Department/Society: **The Finance and Investment Cell**

Name of the Event 3: FINANCE PLATTER 2018

Date of the Event: October 27, 2018

The flagship event of FIC Hansraj, Finance Platter was an immensely successful initiative as it saw a participation of 500+ from colleges across the Delhi University circuit. It had two sub events namely, Aakraman, a strategy simulation game and Stockfather, the legacy digital mockstock competition under its umbrella. The game set in medieval India had everything a war lover could dream of. From purchasing their troops in auction to defeating the enemy in a one-on-one war, this two-round event tested their strategy and mettle. Stockfather was a one-of-a-kind digital mockstock which required participants to analyse news tidbits and place their bets on which stock will face the uptrend and which will suffer a crash. The competition also allowed them to trade in the market and make use of hedging techniques.
