

NAAC ACCREDITED 'A++' GRADE COLLEGE

2022-2023

Name of the Department: Pi, Department of Mathematics

Name of the Event: Pi-Logue

Date of the Event: 14th March, 2023

Description of the event:

The International Pi-Day, celebrated around the world on the 14th of March, is a very interesting event to observe. For some, π is just a constant. For others it's only a fraction and for many more, it is irrelevant. But for those who know what value π actually holds, know that this never ending number is just the beginning of the absurdity that exists in nature. And that it is the only pathway to travel through that infinity road, understanding what it takes to make sense out of nothing.

So the department, in celebration of the Pi-Day 'Pi-Logue', an annual event organised in celebration of the significance of the magnanimous value of Pi. Following the traditions, this year too, Pi-Logue consisted of a speaker session and a couple of exciting competitions.

The event kickstarted with a challenging competition where Maths-enthusiasts had to recite the first 50 digits of Pi after the decimal in minimum time. Another category was to recite as many digits of Pi as they can memorise.

The winner of first category was Kajal, a second year student from Daulat Ram College who broke the previous record and recited the 50 digits of Pi in just 6.01 seconds. And in the second category, we saw Simran Singh, a third year student from Hansraj College bag the winner's title by reciting 350 digits of Pi, which made her the only 3 time consecutive winner of the competition.

After a short break, everyone reconvened for a talk on the man behind the origin of Vedic Mathematics - Bharati Krishna Tirtha. Mr. Anil Kumar Thakur, whom we also saw at the seminar on Vedic Mathematics along with Dr. Prempal Singh, both currently serving as coordinators of Vedic Ganit Delhi, SSUN became the voice to Mr. Bharati that day. The

NAAC ACCREDITED 'A++' GRADE COLLEGE

talk was followed by a beautiful poem in honor of Krishna Tirth ji, recited by the department professor Raksha Verma.

Then came in the most awaited prize distribution ceremony wherein the winners of the Pi-Logue competition were presented with their winning hampers and certificates. To sum it up, the day was like a good ride on a bright sunny day
