

NAAC ACCREDITED 'A++' GRADE COLLEGE

2022-2023

Name of the Department: Pi, Department of Mathematics

Name of the Event: Lakshya Ep2

Date of the Event: 1st March, 2023

Description of the event:

With the advent of spring, the department organised yet another exuberant and interactive speaker session on 'Career Choices after Graduating in Sciences' by Mr. Vaibhav Chaudhary and Mrs. Sakshi Pal on the first of March, 2023. The specialty of the session was that the chief guests were alumni students of the department who have grown up to be extremely successful people in life and hold respectable positions in their fields of endeavour.

The event began with the customary lamp-lighting ceremony, followed by the welcoming of the speakers. The department professors presented the guests with a plant each as a gesture of appreciation, which the speakers emphasised was a tradition followed even back when they organised events within the department. From handing over the celebratory token to their teachers to receiving a similar welcome gift from the same teachers, the speakers gracefully covered the circle of life. Up next came our guest members on the stage and spoke about their life experiences post graduating from this very college. The kind of things they said they did made everyone in that room connect to them in some way or the other because somehow it all felt very personal. Not only did the session prove to be very informative and helpful, but it also took the speakers and our teachers on a trip down memory lane.

It didn't feel like a typical professional advising session; rather, it was more like a gathering of long-time friends discussing life and the students remained an active audience of the discussion throughout. The event concluded with some wonderful pictures and selfies of this extended family of students and teachers, called the Department of Mathematics,
