The most important points according to him were managing your time as students well and using this time to build an impressive resume with relevant certificates and internship experiences. Further, He emphasized the importance of connections throughout the industry and strongly recommended LinkedIn as an excellent place for it. He helped students understand the importance of these little things and how exactly to achieve them. After that, The test was taken. It was a general aptitude test to assess the students' knowledge and logical thinking. It was a short 45 minute long multiple choice test with 22 questions, all logical mathematical questions based on different cases provided in the question paper. Based on the test, students could also get an opportunity to get up to 100% scholarship on CAT prep from Pratham Test Prep. Overall, it was a fruitful session and a great learning experience for the students interested in attempting CAT and getting into Business schools.
