**Event Description:**

We are pleased to report that United Airlines officially conducted their offline recruitment drive on our campus.

The team recently hosted an extensive recruitment process for United Airlines, welcoming a team of 35 professionals, including three managers who traveled from Chicago, Illinois.

The event commenced with a prize distribution ceremony for the SkyQuest'24 competition, recognizing and celebrating the innovative ideas and efforts of participating students. This was followed by an engaging session where United Airlines representatives shared their professional experiences and insights about the company's work culture, growth opportunities, and global presence, providing students with a comprehensive understanding of life at United Airlines. The recruitment process was meticulously structured into three rounds of interviews. The first round was an HR interview, which assessed the candidates' interpersonal skills, cultural fit, and overall personality traits. The second round was a case study assessment, designed to evaluate the candidates' problem-solving abilities, analytical thinking, and practical application of theoretical knowledge. The final round involved guesstimates, where candidates' quantitative skills, logical

reasoning, and ability to make educated approximations were put to the test. This thorough and multi-faceted recruitment process aimed to identify the best talent for various roles at United Airlines, ensuring a high standard of selection and offering students an invaluable opportunity to embark on a promising career with the airline.

We look forward to seeing many of our students excel and advance in their journey with United Airlines.
