

2019-2020

Rotaract Club Of Hansraj College

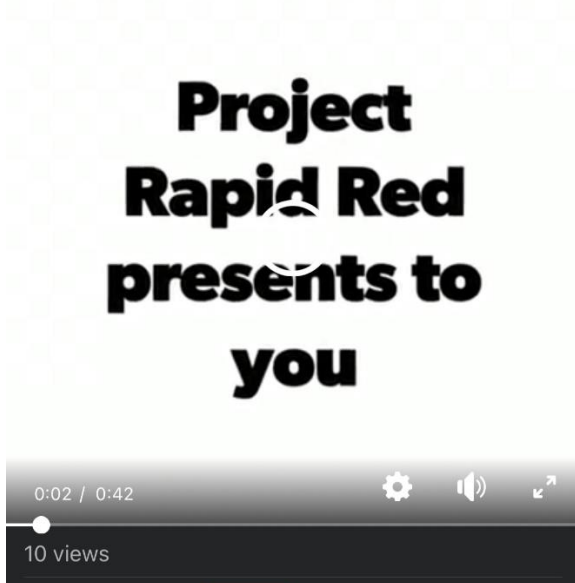

Name of the Event – Coronavirus Awareness campaign

Date of the Event – 14TH FEBRUARY TO 29TH SEPTEMBER, 2020

Rotaract club of Hansraj college launched an online campaign to spread awareness about CoronaVirus.

We urged every one to take care of themselves, observe quarantine and follow the guidelines issues by the Ministry of Ayush regarding the precautions against COVID and build immunity by eating healthy and stay at home. For the campaign we launched online awareness video on the facebook in collaboration with Pint Network and Sarthak Prayas.

Venue: FACEBOOK

हंसराज कॉलेज

CORONAVIRUS AWARENESS.

Don't be scared, be aware.

#coronavirus

Prevention Tips
protect yourself against coronavirus

SPREADING THE INFECTION
The virus can spread from person to person through closer contact. Transmission from infected patients to healthcare personnel has also been observed.

PREVENTIVE STEPS

- Avoid touching your eyes, nose and mouth with unwashed hands.
- Wash your hands often with soap and water or a hand sanitizer and help your children do the same.
- Clean and disinfect frequently touched surfaces such as toys and doorknobs.
- Avoid closer contact, such as kissing, sharing cups or sharing eating utensils with sick people.
- Cover your nose and mouth when you cough or sneeze.

CORONAVIRUS AWARENESS.

Don't be scared, be aware.

#coronavirus

INTRODUCTION

Coronaviruses (CoV) are a large family of viruses that cause illness ranging from the common cold to more severe diseases such as Middle East Respiratory Syndrome (MERS-CoV) and Severe Acute Respiratory Syndrome (SARS-CoV). A novel coronavirus (nCoV) is a new strain that has not been previously identified in humans.

Most coronaviruses spread the same way other cold-causing viruses do: through infected people coughing and sneezing, by touching an infected person's hands or face, or by touching things such as doorknobs that infected people have touched.
