Name of the Department/Society: **Society for General Awareness**

Name of the Event 3: Road Safety Awareness

Date of the Event: 17<sup>th</sup> October 2020

Road accident is the most unfavourable and distressful thing to happen to a road user, though they happen quite often. Most of the road users are quite well aware of the general rules and safety measures while using roads but it is only the laxity on part of road users, which cause accidents and crashes. Estimates by the World Health Organization suggest that, on a yearly basis, road crashes kill 1.25 million people, nearly 3400 road fatalities per day and injure up to 50 million.

The measures undertaken in order to prevent road accidents and ensure safety for all on roads is what 'Road Safety' is all about. But should it not be that everyone on road should be mindful of his /her safety. Ironically, it is not the case and hence the need has come to discuss about road safety.
