2021-2022

Name of Society : Ordinateur
Name of the Event : In-House Session on Linux
Date of the Event : 16.10.2021

"Why search outside whe n you can find wonders within you?" We at Ordinateur are quite diverse. So, we started "In-House Sessions" to yield the maximum from ourselves for ourselves.

For the very first session, we gathered on Saturday, 16th October, where one of our classmates, Vivek Kumar who is keenly interested in Linux, Web Development, and Blockchain Development took an insightful session on 'Why should you move to Linux?'. The session began with a brief introduction of our speaker, quickly followed up by a detailed introduction of Linux including some key points like 'Installation of Linux', 'Dual Booting' and 'How can Linux help you as a developer'. He further covered topics like some popular Linux distributions, Command-Line(Bash), customization, security, and some interesting things you can do using Linux.

Proceeding towards the end, a QnA session was conducted where the classmates quench their curiosity. Everyone enjoyed learning and building up new skills.
