

2020-2021

Name of the Department/Society: **Ordinateur**

Name of the Event 6: Webinar on Open Source Trends

Date of the Event: 06-02-2021

Ordinateur, the Computer Science Society of Hansraj College, successfully organized a webinar on the topic OPEN SOURCE TRENDS with Mr. Kartik Sapra being its speaker. A healthy audience, around 100 in number, comprising of students from different varsities attended the session.

Kartik Sapra is associated with Coding Blocks for over two years and is also an open-source enthusiast. He started the webinar by explaining what open source exactly is, gave several examples and also shared some of his works with the participants. This cleared many misconceptions among the students and helped them know its application.

Next, he laid down the pros of open source and informed about the prerequisites which the students should take into consideration. Some of his key tips include— studying source-code of a website and trying to grasp it by self; one needs to be ever-inquisitive and shouldn't hesitate to contact developers in case of any doubts whatsoever. Lastly, he helped them know about which open source programs they can pursue while being in college. The session was pretty interactive throughout. The students had bunches of questions and all of them were answered by Mr. Kartik in the best possible manner. In a gist, it was a wonderful experience for everybody present for they gained knowledge which was majorly new to them. His innovative style and experience did the trick.
