The seminar aimed to create awareness about the vital role of accelerator programs and incubation centers in transforming innovative ideas into viable entrepreneurial ventures. These initiatives, closely aligned with the national vision of **Atmanirbhar Bharat** and supported by the **Ministry of Defence** and allied government programs, are designed to provide structured mentorship, financial access, prototype development, legal guidance, and networking opportunities. Incubation centers particularly act as nurturing grounds for students and faculty to channelize creativity and research into impactful start-ups, while accelerators focus on scaling early ventures towards commercialization and market readiness.

The keynote address was delivered by **Mr. Mayank Jha**, a renowned **Global Business Icon Awardee (2021)** and **Start-up India Expo Awardee (2021)**. Mr. Jha, a **serial entrepreneur, motivational speaker, start-up coach, and faculty development program trainer**, shared his expertise on the significance of resilience, adaptability, and innovation in entrepreneurial success. His lecture provided an in-depth understanding of the start-up ecosystem in India, with emphasis on practical aspects of securing incubation support, developing business models, and accessing accelerator programs. He also highlighted case studies of successful start-ups emerging from incubation centers and discussed opportunities within the defence innovation sector, where start-ups are encouraged to contribute to indigenous technologies and strategic self-reliance. The session was highly interactive, with students and faculty engaging in meaningful discussions on idea validation, scaling strategies, and the importance of institutional support in entrepreneurship.

The session concluded with a lively Q&A session, where students and faculty engaged in thought-provoking discussions on policy implementation, technological advancements, and future career prospects in Innovations. Prof. Monika Koul proposed the vote of thanks to the speaker and organizing team. The event proved to
