Name of Convener: Dr. Ambika

Event Description (About 250 Words):

On January 4, 2025, the **Institution Innovation Council (IIC)** and the **Department of Physics and Electronics**, Hansraj College, University of Delhi, organized a one-day exposure visit to the **National Physical Laboratory (NPL)**, coinciding with NPL's **79th Foundation Day celebration**.

The visit was attended by second- and third-year students of the Physics and Electronics Department. The group arrived at NPL at 9:00 AM and was warmly welcomed with refreshments. Following this, a guide was assigned to the group by **Dr. Shibu Saha**, Senior Scientist at NPL, who provided an introductory briefing about the laboratory and its key focus areas. The day's itinerary included visits to several advanced laboratories, offering students a firsthand opportunity to observe and learn about cutting-edge technologies. The topics covered during these visits included thin film preparation, sputtering, thermal evaporation, spectroscopy, and the upgraded water flow calibration facility, among other innovative technologies. Scientists at NPL not only demonstrated these concepts but also engaged with the students, answering questions and clarifying doubts. Each laboratory visit provided a unique and enriching experience, enabling students to gain valuable insights and expand their understanding of the practical applications of physics and electronics. After visiting three laboratories, the students attended the 79th Foundation Day program. Distinguished speakers, including Prof. Veezhinathan, Director of IIT Madras, and Prof. Venu Gopal Achanta, along with other eminent scientists, delivered insightful talks that inspired the audience. At around 12:30 PM, students had the opportunity to interact with experts during a dedicated session, followed by lunch.

Overall, the visit was both informative and engaging, offering students a blend of theoretical knowledge and hands-on exposure to state-of-the-art research in physics and electronics.
