**IIC Hansraj college in collaboration with Haritama The environmental awareness society conducted an innovative and design thinking programme HaritKaksha 3.0.** In this programme a **45-day online environmental education initiative**, was conducted for students of **classes 6th to 8th** with the objective of spreading awareness about environmental conservation. The program, which commenced on **October 25 and concluded on December 8**, was a collaborative effort involving **school heads, coordinators, teachers, and technical/non-technical team members**. The initiative aimed to educate students on various environmental issues and encourage them to adopt sustainable practices.

**Program Structure and Key Highlights** The **online sessions** covered a wide range of topics, involving innovation and design thinking such as:

- **Biodiversity conservation**
- **Environmental issues and challenges**
- **Water scarcity and its implications**
- **Waste management techniques**
- **Global warming and climate change**
- **Soil and noise pollution**

To enhance engagement, **interactive activity sessions** were conducted every Wednesday. These activities provided students with a platform to showcase their creativity, reinforcing their learning through innovative and practical applications.

**Assessment and Evaluation** To gauge the effectiveness of the initiative, an **assessment test** was conducted at the end of the program via Google Forms. This test evaluated students' understanding of environmental issues and their approaches to sustainability.
