Event Description

The Entrepreneurial Cell of Hansraj College, in collaboration with FOSS United, successfully organized the second Delhi Startup Meet on January 25, 2025. The event served as a dynamic platform, bringing together startup founders, developers, and tech enthusiasts to foster collaboration and innovation within the entrepreneurial and open-source communities.

The event featured expert talks by prominent members of the open-source community, each offering unique perspectives on cutting-edge technologies and practical applications. Ravpreet Singh Maini's session, Mon-Owl: Monitor Your Linux Server Using Python Scripts, provided participants with valuable insights into efficient server monitoring techniques, showcasing how Python can streamline server management. Chirag Aggarwal's session, Writing Event-Driven Serverless Code to Build Scalable Applications, focused on developing scalable software solutions, emphasizing the power of serverless architecture in modern application design. Meanwhile, K Gopal Krishna's talk, Encryption, ZFS, and Proxmox: An Unusual Triangle, delved into innovative approaches to data encryption and storage, offering a deeper understanding of advanced technologies like ZFS and Proxmox in securing and managing data effectively.

The event also featured active engagement from participants, who enthusiastically interacted with speakers, asked insightful questions, and shared their perspectives. The meet provided a valuable networking platform, enabling connections among attendees with shared interests in technology and entrepreneurship.

Highlighted in The Drop Times, the event underscored Hansraj College's commitment to cultivating a culture of innovation and collaboration. By bridging the gap between academia,
