**Report:-** Entrepreneurship is more than just starting a business. It's about solving problems, creating values, and driving change. It embodies creativity, resilience, and a vision to make a difference. It is important to inspire, educate, and empower aspiring entrepreneurs and offer

them insights into the strategies, challenges, and opportunities that come with building successful ventures. To give an exposure to our students and budding entrepreneurs for the development of innovative and entrepreneurship skill a webinar was organised on 'Idea to Impact' by Institution's Innovation Council, Hansraj College, University of Delhi, on 28<sup>th</sup> November, 2024. Arka Prava Mukherjee (student volunteer) began the webinar with welcome address. Successively, Dr. Ritu Pandey, co-ordinator of the event introduced Mr. Tony Jose, who was the speaker of the webinar. Mr. Jose shared his inspiring journey from starting as a research assistant to becoming a successful entrepreneur. He highlighted the challenges he faced along the way and the strategies he employed to overcome failures. His emphasis on resilience and perseverance resonated deeply with the audience. He also provided valuable insights into maintaining focus and continuously moving forward. His journey serves as a testament to the power of determination and innovation in achieving success.

The workshop came to an end after the valedictory remarks by Prof Monica Kaul, IPR-Coordinator, IIC-HRC, DU. She extended the vote of thanks to organizing team and all the participants of the workshop.
